Summary of Significant Accounting Policies and Going Concern

 A. Accounting Practices

The Michigan DIFS recognizes only statutory accounting practices prescribed or permitted by the State of Michigan for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Michigan Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Michigan. The State has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. As of September 30, 2018, these prescribed accounting practices are not applicable to the Company.

A reconciliation of the Company's net loss and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Michigan is shown belo

Change in Incurred Claims and Claim Adjustment Expenses
Reserves as of December 31, 2017 were \$11,142,619 for incurred claims and claim adjustment expenses. As of September 30, 2018, \$6,760,644 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$198,676 as a result of the re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been favorable prior year development of \$4,183,299 during 2018 for the year ended December 31, 2017. The favorable reserves developments are attributable to claims settled for amounts less than originally estimated, primarily due to lower health care cost trends as well as the actual claim submission time being faster than assumed in establishing the accrued medical expenses in the prior year. These adjustments are generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
